

Fuel Charge Exemption Certificate for Farmers

under section 36 of the Greenhouse Gas Pollution Pricing Act, and the Fuel Charge Regulations

If you are a **farmer** within the meaning of the Greenhouse Gas Pollution Pricing Act (the Act) and you carry out eligible farming activities (as defined below), give this exemption certificate to the registered distributor that delivers the fuel in accordance with this Act.

If a farmer receives delivery of gasoline or light fuel oil (diesel fuel) using its exemption certificate, whether the fuel was delivered at the farm or delivered at a cardlock facility that is registered as a distributor, but uses that fuel type for non-eligible farming activities, the farmer must self-assess the fuel charge based on the quantity of the fuel type that is used for purposes other than those eligible for farmers under the Act and its regulations, using Form B401, Fuel Charge Return for Non-registrants, and the related schedule.

Eligible farming activity means either of the following:

- the operation of eligible farming machinery on a farm for the purposes of farming
- the operation of eligible farming machinery for the purposes of going from a location at a farm to another location at a farm

Eligible farming machinery means property that is primarily used for the purposes of farming and that is a farm truck or a tractor.
